Applies to: All Territory (Location)

STANDARD RATE SCHEDULE – THERMAL ENERGY RIDER **-(Rider TE 910)**

This Rider Shall Not be Available to New Consumers After October 1, 2022.

THERMAL ENERGY RIDER:

The Cooperative is offering to all qualifying Members a Kiamichi Loop tariff for the installation of a Geothermal Loop as part of the Members installation of a Ground Source Heat Pump System. The Cooperative will have installed the necessary geothermal loop for the Member and charge the Member a monthly fee for use of the loop. The charge shall be added to the monthly power bill based on one - three hundred sixtieth (1/360) of the cost of the loop installation, but not less than \$10.00 per month. The Member agrees to have a signed Kiamichi Loop Agreement on file at the Cooperative and a signed General Geo Ground Loop Easement on file at the Cooperative and filed with the County in which the loop is installed. The monthly Loop payment to Kiamichi is to compensate the Cooperative for absorbing a portion of the installation costs. The Member may terminate participation in this program at any time by purchasing the Loop for the original loop cost (as incurred by Kiamichi) less all accumulated monthly tariff charges paid by Member to the date of termination. If Member elects to purchase the Loop, upon receipt of the payoff amount, all monthly Loop Tariff payments will terminate, the Cooperative will vacate the General Geo Ground Loop Easement and will no longer be responsible for the maintenance of the loop system.

This Rider Shall Not be Available to New Consumers After October 1, 2022.

Board Approved: August 31, 2023 Effective: November 1, 2023
